upholstery in velvet

copper veneer with high gloss varnish

hand-painted traditional Portuguese tiles

polished brass

all the materials, finishes and sizes can be changed by customers request,
after careful analysis of the requested changes by our technical and design teams

A royal masterpiece

The story behind

Elegant. Seductive. Exquisite. Timeless. Powerful.

This sofa inspired by one of the most iconic and timeless models - the Chesterfield - breathes luxury, elegance and tradition.

Our designers wanted to combine the timelessness of the Chesterfield model with the richness and tradition of Portuguese tiles, to give life to a noble and exclusive piece made with the most traditional techniques of upholstery and joinery.

All to make your ambiance even more exquisite and unique.

Just as Dukes and Duchesses have left their mark on History, NAUU DESIGN wants to leave its own mark on our clients's history, with this very beautiful art-furniture piece.

Tiago Rato creative director

The designer Tiago Rato already has some years of experience in the field of Interior Design in Portugal, having created NAUU DESIGN in 2013.

With the birth of the brand he has created pieces of high quality, refinement and bold design. The exclusive pieces created by the designer and his team include sideboards, cabinets, stools, chairs, mirrors ...

Thus, along with his talented and experienced team, designer Tiago Rato provides custom design pieces according to the tastes of the brand's clients, so that they fit into any ambiance, no matter if they are residential, commercial or hotel.
